Postlude		

Shortly before His crucifixion Christ had bequeathed to His disciples a legacy of peace. "Peace I leave with you," He said, "my peace I give unto you." . . . This peace is not the peace that comes through conformity to the world. Christ never purchased peace by compromise with evil. The peace that Christ left His disciples is internal rather than external and was ever to remain with His witnesses through strife and contention.

#216 When the Roll I Called Up Yonder

#192 O Shepherd Divine

#221 Rejoice, the Lord Is King

Theme Song
We Declare Your Majesty
(Please Stand)

We declare Your majesty,
We proclaim that Your name is exalted.

For You reign magnificently, Rule victoriously,
And Your power is shown throughout the earth.

And we exclaim, "Our God is mighty,
Lift up Your name for You are holy."

Sing it again all honour and glory,
In adoration we bow before Your throne

Prayer Song
Come Just As You Are

Come just as you are, Hear the Spirit call, Come just as you are.
Come and see, come receive, Come and live forever.

Life everlasting, Strength for today,
Taste the living water and never thirst again.
(Please Kneel and Repeat 1st Verse)

Children's Song
The Sixth Day

(Sung to the tune of "O Day of Rest and Gladness)

On the sixth day of creation God made the animals and man,
But best of His creation was made in His image,
People to rule the animals and take care of the earth.
We sing our praise to Jesus, And give Him all homage.

Health Nugget

Pap Test Awareness Week - October 25-31, 2009

Having a regular Pap test lowers your risk of cervical cancer. Book your appointment today! For more information about Pap testing, call your Health Care Provider, or 1(866)643-8719.

Information Below Provided by Mayo Clinic Staff & Lois McGuire, R.N., M.S.N., W.H.N.P.

The Pap smear screening test is one of modern medicine's greatest successes. In areas of the world where it's available, the Pap smear has reduced cervical cancer rates dramatically by detecting infection with human papilloma virus (HPV) and associated changes in cervical cells.

A Pap smear, also called a Pap test, is a procedure to test for cervical cancer in women. A Pap smear involves collecting cells from your cervix — the lower, narrow end of your uterus.

Detecting cervical cancer early with a Pap smear gives you a greater chance at a cure, should cervical cancer be detected. A Pap smear can also detect changes in your cervical cells that suggest cancer may develop in the future. Detecting these cells early with a Pap smear is your first step in halting the possible development of cervical cancer.

The tradition has been to do a Pap smear annually on all women. Now we are learning that we can decrease the frequency of Pap smears and still protect women.

When should a young woman start having Pap smears?

The recommendation is to have your first Pap smear test three years after you become sexually active or at age 21, whichever comes first....

After I start to have Pap smears, how often do I need them?

From the time you start to have Pap smears until age 30, we

recommend a Pap smear every year... Once you have started a long term commitment, you may begin to have a Pap smear every 3 years.

Women age 40 and above still need an annual mammogram, clinical breast examination and pelvic examination. We reduce the frequency of Pap smears, but not visits to a provider.

When can I stop Pap smears?

Opinions vary, but most women can stop Pap smears at age 65 or 70 if they've had three consecutive normal Pap smears over the last ten years....

We are all used to getting a Pap smear every year. It can feel uncomfortable to let go of this familiar schedule, but technological progress and accumulated knowledge have made it unnecessary in many circumstances. Talk to your provider each year to assess what your needs are for Pap smear screening.

Sabbath Thought

Don't pray when you feel like it.

Have an appointment with the Lord and keep it.

A man is powerful on his knees.
