**Sabbath Thought**

***If the truth were known and we could see  
With eyes into tomorrow,  
Our prayers of yesterday were heard  
In the midst of all our sorrow.***

***Without prayers, some foot may slip  
From the path that leads to life.  
Without our prayers, some precious friend  
Would fight alone the strife.***

***Without talking with God of plans and hopes,  
How could I face the day?  
Without His counsel and His care,  
Who else would guide my way?***

***Prayer is the call for the cleansing wave  
In the heart of a down-trodden soul.  
Prayer is the first step to bring one to God,  
The savior is waiting to make that life whole.***

Children's Song  
**A Little Talk With Jesus**

A little talk with Jesus makes it right, all right,  
A little talk with Jesus makes it right, all right;  
In trials of every kind, praise God, I always find,  
A little talk with Jesus makes it right, all right.

Benediction

**Turn Your Eyes Upon Jesus**

Turn your eyes upon Jesus, Look full in His wonderful face;  
And the things of earth will grow strangely dim  
In the light of His glory and grace.

Turn your eyes upon Jesus, Take hold of His powerful hand,  
He will lift you up in His mighty love,  
In the strength of your God you can stand.

**Back Pain May Cause Your Brain to Shrink**

Dr. Allan Handysides, Director  
GC Health Ministries Department

Persons suffering chronic back pain were reported to have as much as an 11 percent shrinkage in their brain size.

The loss appears to be in grey matter, which is important for cognitive function and memory. Vania Akparian said the assumption had been the brain reverted to normal after the pain stopped. The researchers from Northwestern University, Chicago, claim 1.3 cubic centimeters of grey matter is lost for every year of chronic pain. Such loss is equivalent to 10-20 years of normal aging.

Whether recovery is possible is not known.

If this study is validated, it means chronic back pain is a serious factor in aging, and even more intensive measures to combat the pain will be required. Pain relief may be more important than previously believed. The implications of this study may require a re-thinking of many traditional attitudes to pain relieving strategies, including the use of pain medications. It may not be good to suffer in silence.
